SKILLS

- **Languages:** HTML, CSS, JavaScript, PHP
- **Frameworks & Libraries:** React, Node.js, Bootstrap, Tailwind CSS
- **Tools/Platforms:** Node Package Manager (NPM), Git, GitHub, Vercel
- **Soft Skills:** Problem-Solving Skills, Adaptability, Time Management

PROJECTS

- **RideMates – Peer-to-Peer Ride Sharing System:** Apr 2026
Built a peer-to-peer ride-sharing application for university students and faculty to enable safe and cost-effective commuting.
Implemented domain-restricted authentication to allow access only to verified institutional email users.
Developed a ride posting and booking system with real-time seat availability and concurrency control to prevent double booking.
Integrated map-based route visualization to help users view travel routes before confirming bookings.
Created a pricing system based on fuel cost to avoid overcharging.
Technologies: React Native, Expo, Node.js, MySQL, Mapbox API, Firebase Authentication
GitHub Link: <https://github.com/VivekThakur12/RideMates.git>
- **Car Rental Management System:** Feb 2026
Built a car rental web application for seamless booking and management.
Implemented separate login and signup for car owners and customers with secure password hashing and session handling.
Developed a dynamic booking system with car listings and automatic price calculation based on dates.
Created dashboards for owners to manage cars and bookings, and for customers to book and track rentals.
Ensured security with proper validation, structured database design, and safe data handling.
Technologies: PHP, MySQL, HTML, CSS and JavaScript
GitHub Link: <https://github.com/VivekThakur12/Car-Rental-Management-System-.git>
- **picKo – Campus Food Preordering App:** Dec 2025
Developed a campus food pre-ordering app that helps students avoid long queues by ordering before break time.
Added features for browsing canteen menus, adding items to cart, and choosing a pickup time slot.
Implemented secure payment options (UPI / Cash on Pickup) with a smooth and user-friendly 3-tab interface.
Created profile and order history pages to help users manage their details and track past orders easily.
Technologies: HTML, CSS, TypeScript, Ionic
GitHub link: <https://github.com/VivekThakur12/picKo.git>

CERTIFICATES

- React JS (SCALER) Dec 2025
- Responsive Web Design (freeCodeCamp) Jul 2025
- HTML, JavaScript & Bootstrap – Certification Course(udemy) Jan 2025
- Tailwind CSS 4 Essential Training(udemy) Oct 2024

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Computer Application; CGPA: 7.32 Aug 2023 - Present
- **Govt Senior Secondary School** Nahan, Himachal Pradesh
Intermediate; Percentage: 84% April 2022 - March 2023
- **S.V.M Public High School** Nahan, Himachal Pradesh
Matriculation; Percentage: 92% April 2020 - March 2021
